Key features highlight

- CAN/CSA Z243.200-92 standard compliant
- 105 keys located in accordance with ISO/CEI 9995-3
- 48 keys laid out in accordance with ISO/CEI 9995-3
- Standard QWERTY layout
- Function keys labeled with pictograms in accordance with ISO/CEI 9995-7
- Comfort curve design
- Spill resistant design

The TBITS Comfort Curve 2000 has been exclusively developed by Microsoft® for CiaraTech. This compact, curved keyboard has been designed for people who prefer flat keyboards. Designed by ergonomic experts, the Microsoft® Comfort Curve 2000 lets your hands sit more naturally on the keys for comfort and productivity. Its sleek, compact design fits easily in most keyboard trays.

It's easy to use - just plug it and start typing. Place your hands naturally and work comfortably using the distinctive and ergonomist-approved Comfort Curve design. Save desk space with this keyboard ultra-thin profile.

No need to stop living when you start working - these keys resist spills.

Just plug it and start typing - no special software or setup required.
